

If your business' phone company doesn't mean business, where does that leave you?

Sound familiar?

“Thank you for calling Mega-Phone Company's Automated Customer Service Line. Please press **1**  and listen to the following tedious menu of options. If you are calling to report a buzzing or clicking in the phone, press **2**  If you can't fully describe the problem, press **3**  then go next door and get someone who can. After all, our time is valuable and you are

wasting it. Press **4**  if you would like to listen to different music. If your telephone has suddenly burst into flames, press **5**  then run from the building. Don't worry, we'll keep you on hold. If you are a business customer and would like to be connected with a real person who lives and works in our community, please hang up and call DayStar Communications at 1-866-530-5736.”

Please call A.S.A.P.!
